## BY THE COMMISSION:

## OPINION AND FINDINGS

On September 26, 2003, an application was filed by Qwest Corporation (Qwest) of Denver, Colorado, seeking approval of an amendment to the wireline interconnection agreement previously approved in Application C-2605, with Pinpoint Communications of Cambridge, Nebraska. Notice of the application was published in <a href="https://doi.org/10.1001/jheps.com/">The Daily Record</a>, Omaha, Nebraska, on September 30, 2003. No protests were filed; therefore, this application is processed pursuant to the Commission's Rule of Modified Procedure.

Pursuant to Section 252(i) of the Telecommunications Act of 1996 (the Act), Qwest and Pinpoint entered into an interconnection agreement, which was approved by the Commission on October 30, 2001, in Application No. C-2605. In the current application, Qwest and Pinpoint seek to amend the original agreement by adding terms and conditions to reflect an Order on Remand and Report and Order by the Federal Communications Commission (FCC) in CC Docket 99-68 regarding Intercarrier Compensation for ISP-Bound Traffic.

The amendment does not discriminate against any telecommunications carrier. Furthermore, the implementation of the amendment is consistent with the public interest, convenience and necessity.

Section 252(e) of the Act requires this Commission to review negotiated interconnection agreements to ensure they comply with Sections 251 and 252(d) of the Act, as well as all applicable state laws. Using those standards, the amendment filed September 26, 2003, should be approved.

## ORDER

IT IS THEREFORE ORDERED by the Nebraska Public Service Commission that the amendment to the wireline interconnection agreement between Qwest Corporation and Pinpoint Communications, be, and it is hereby, approved.

IT IS FURTHER ORDERED that the executed amendment filed herein be, and it is hereby, made the official copy on file with the Nebraska Public Service Commission.

MADE AND ENTERED at Lincoln, Nebraska, this 4th day of November, 2003.
